INTRODUCTION

From June to September of 1999 a major survey of visitors was undertaken by the Yukon Bureau of Statistics on behalf of the Yukon Government's Department of Tourism. This survey, referred to as the Visitor Exit Survey (VES), sought answers from visitors on a wide variety of questions relating to their Yukon visit. A comparable survey was run in 1987 and 1994. Many of the results in the 1999 survey are compared to results from the 1994 survey in this report.

The VES was administered to visitors as they left the Yukon for the last time.

A brief report on the preliminary results of the VES was released in the fall of 2000. Preliminary results from the regional visitor exit survey were also released in the fall of 2000.

The current report will focus specifically on the results of the regional visitor exit survey administered in the Campbell region (one of nine Yukon tourism regions) in conjunction with the VES. Other reports will cover the eight remaining tourism regions: Carcross/ Southern Lakes, Klondike, Kluane, North Yukon, Silver Trail, Teslin, Watson Lake, and Whitehorse.

In addition to further regional reports, an overall Yukon summary will be prepared as well as a technical paper describing the methodology used in the survey.

- The typical amount spent by each *visitor party* during their visit to the Campbell region was **$73**.
- **36%** of *visitor parties* spent in excess of $100 each night of their stay.
- Each *visitor* who stayed a night in the Campbell region spent on average **$31**.
- Overseas *visitor parties* spent on average **$20** during their visit to the Campbell region; Canadian *visitor parties* spent **$29**; and *visitor parties* from the U.S.A. spent on average **$140**.
- **30%** of visitor spending in the Campbell region was by *visitor parties* travelling by car, truck or van.
- The highest average expenditure in the region was by *visitor parties* travelling by motorhome, RV or camperized bus (**$36**).
- Looking at a typical expenditure of $100 by a *visitor* shows that the highest amount spent was for transportation (**$59**). *Visitors* from Canada spent the most on transportation (**$71**).

HOW DID THEY PLAN FOR THEIR VISIT ?

- **85%** of *visitor parties* stated that they had planned to visit the Campbell region before arriving in the region.
- Personal experience was the most frequently mentioned source of information *visitor parties* used in planning their trip.

A SPECIAL NOTE ABOUT THE SURVEYS

This report on the Campbell region is based on the results of the regional surveys administered as part of the 1999 Visitor Exit Survey (VES).

A regional visitor was defined as a non-resident who made at least one stop in the region. A non-resident who travelled through a region without stopping was not counted by the survey as a regional visitor. A stop could have been as brief as gassing up at a local service station or stopping at a visitor reception centre, or could have been as long as staying over in the region for several nights. A stop could also have involved leaving the region and returning to continue the visit. For example, Mr. and Mrs. Smith from Houston, Texas travelled to the Yukon in June, 1999. They arrived in the Klondike region, Dawson City to be exact, and stayed for three nights, leaving to travel over the Top of the World Highway to various destinations in Alaska. In late July they returned to the Yukon on their way home via the Alaska Highway, stopping briefly in the Kluane region at Beaver Creek, Destruction Bay and overnight in Haines Junction, before arriving in Whitehorse for a stay of two nights. They then departed the Yukon via the south Klondike Highway through Carcross on their way to Skagway and ferry service to the south. For the purpose of the Klondike regional survey they were counted as a party of two, who visited the Klondike region once for a total stay of three nights. Since the Smiths made several stops and stayed overnight in Haines Junction before their two night stay in Whitehorse, they would also have been counted as visiting both the Kluane and Whitehorse regions.

The report released in October of 2000, 1999 Visitor Exit Survey Preliminary Summary, presented statistics from the Visitor Exit Survey (VES). This survey was administered to visitors as they left the Yukon for the last time. Results from the VES showed that between June and September of 1999, 232,766 visitors came to the Yukon. However, most visitors to the Yukon, such as in our example above of the Smiths from Texas, visit and stop in more than one Yukon tourist region. These visitors, or 'shared customers', were counted by the regional VES in each region visited. The regional surveys show that the 232,766 Yukon visitors counted by the VES as they left the Yukon for the last time, made approximately 530,000 'stops' in total to all of the nine Yukon visitor regions.

The focus of each of the regional reports therefore will be on the number of tourists who visited the region - who they were, where they came from, how much they spent, what they did in the region, where they stayed, how they 'got around' and how they evaluated the local services and attractions.

Note: the 1994 expenditure figures have been adjusted for inflation and reported in 1999 equivalent dollars.

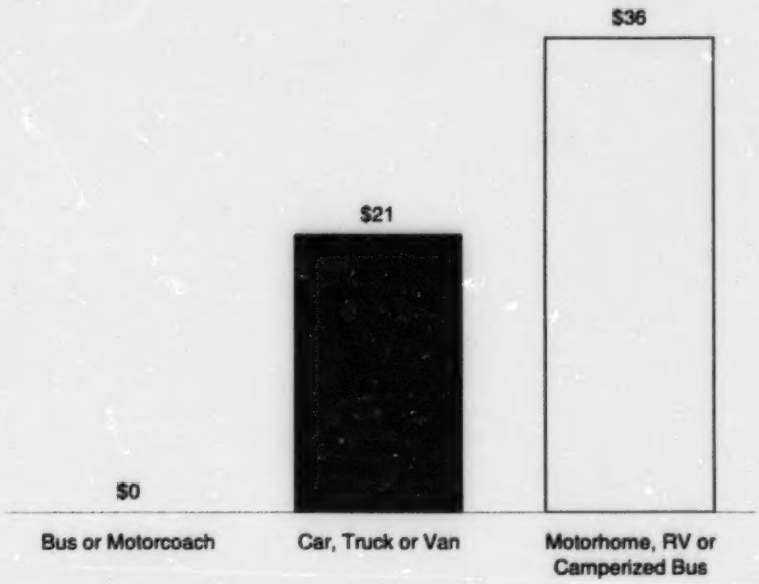
Expenditures in the Campbell region by Mode of Travel

The graph on the left shows the expenditure by visitor party by mode of travel while in the region. Of the total amount spent in the Campbell region by all visitor parties ($1,576,850):

- $473,796 or 30% was spent by visitors travelling by car, truck or van;
- $337,835 or 21% was spent by visitors travelling by motorhome, RV or camperized bus; and
- $765,219 or 49% was spent by visitors travelling by other modes of travel (including bus or motorcoach).

Average Expenditure in the Campbell Region
by mode of travel within the region



Note: due to the small sample size in the Campbell region 'bus or motorcoach' figures have been included in the 'other' category.

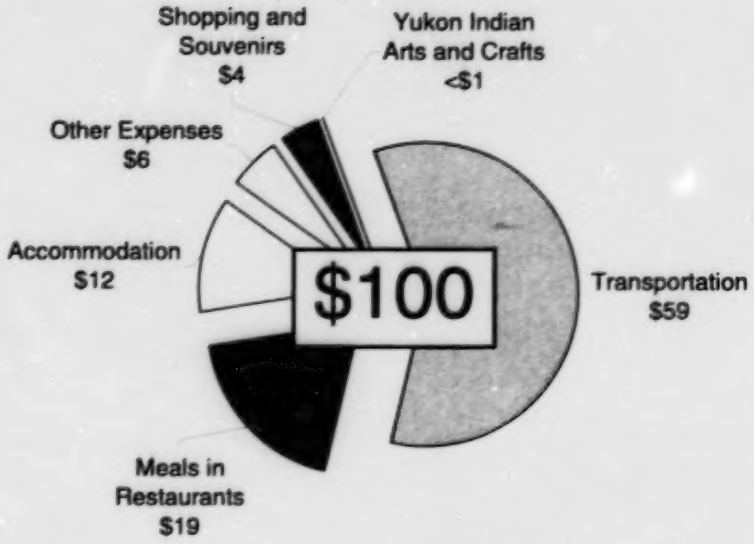
Note: these figures are 'trimmed' averages meaning that extremely high and extremely low spenders have been eliminated from the calculation to obtain a more meaningful average figure.

HOW MUCH DID THEY SPEND ON THEIR VISIT TO THE REGION ?

What did visitors spend their money on?

The graph on the right shows what visitors to the Campbell region spent their money on while visiting the region. In general, every $100 spent by a visitor was divided up as follows:

- $59 out of the $100 was spent on transportation;
- $19 was spent on restaurant meals;
- $12 was spent on accommodation;
- $4 was spent on shopping and souvenirs;
- $6 was spent on other expenses; and
- less than $1 was spent on Yukon Indian arts & crafts.



The table below shows how spending varied depending on the origin of visitors. Spending is shown as so many dollars out of every $100 spent. For instance, $71 out of every $100 spent by visitors from Canada was spent on transportation as compared to $57 for visitors from the U.S.A.and $50 for overseas visitors.

	Visitor Origin

Total	**$100**	**$100**	**N/A**	**N/A**

The visitors who spent on average the greatest proportion of their visitor dollars on each type of expense were:

Motorhome, RV or camperized bus visitors spent $75 out of every $100 on transportation;

Motorhome, RV or camperized bus visitors spent $14 out of each $100 on accommodation;

Car, truck or van visitors spent $28 out of each $100 on meals in restaurants;

Car, truck or van visitors spent $9 out of each $100 on shopping and souvenirs; and

Car, truck or van visitors spent $6 out of each $100 on other expenses.

Did visitor spending vary with the type of transportation visitors used?

The question could be clarified with a specific example such as, 'Did visitors who travelled in a motorhome spend their money differently than visitors who travelled by bus or motorcoach?' The table on the left provides a breakdown of a typical $100 spent by visitors, categorized by the type of transportation they used in the region. For instance, looking at spending on accommodation:

- visitors travelling by car, truck or van spent on average $11 on accommodation out of each $100 they spent;
- visitors travelling by motorhome, RV or camperized bus spent $14 out of each $100;
- visitors travelling by bus or motorcoach is not available; and
- spending by visitors travelling by other means of transportation is not available.

HOW DID THEY PLAN FOR THEIR VISIT ?

Before they arrived had they planned to visit the Campbell region?

The graph on the right shows that of the 14,287 tourist groups or parties who visited the Campbell region, 12,150 or 85% said they had planned to visit the region, 2,137 or 15% said they had not planned to visit the region.

In 1994, 5,306 or 83% out of the 6,383 tourist groups or parties who visited the Campbell region, said they had planned to visit the region, 590 or 9% said they had not planned to visit the region, and 487 or 8% did not respond to the question.

A further breakdown of trip planning by travel parties in each visitor region is shown in the table to the right.
